PRAI	JP 1999-200940		19990714		
AB	The invention relates to an electromagnetic wave absorber contg. cement, silica, super-light-wt. calcium silicate hydrate having a bulk sp. gr. of .ltoreq. 0.15 5-30, fiber reinforcing material, and ferrite 20-60 %.				
ST	electromagnetic wave absorber calcium silicate hydrate				
IT	Electromagnetic wave (absorber; electromagnetic wave absorber contg. cement and silica and calcium silicate hydrate and fiber and ferrite)				
IT	Cellulose pulp Cement (construction material) Electromagnetic shields (electromagnetic wave absorber contg. cement and silica and calcium silicate hydrate and fiber and ferrite)				
IT	Ferrites
